

To Whom It May Concern;

I am writing this in opposition to S.B 184 and H.B 5262

I do not support mass mail election ballots. This violates our state Constitution and the law. We have laws that govern absentee balloting for those who are out of the country due to Military service or those who cannot make it to the polls due to physical disability or severe illness.

Laws were changed using Covid as an excuse in 2020. Now, Democrats across this state and across this nation, want to use Covid once again to attempt to cheat again. Covid is not as serious as it was made out to be – we all know that now. It was used as a political tool to benefit the Democrats.

Mass balloting laws were made without consideration of the people of the state, the state Constitution or our laws on the matter. If you want to make changes to the state Constitution, then the matter must be put on the ballot for the people of the state to decide before an amendment can be brought before the legislature. That's how it works.

In 2020, there was mass law breaking, ballot harvesting, voter rolls were not cleaned up according to law prior to the election, people received ballots for deceased relatives, people who no longer lived at the residence, and some even said they got more than one ballot for themselves.

In 2020, we had deceased voters, ghost voters, illegal alien voters, and even under age voters in CT.

How many CT residents, or Americans across the nation, for that matter, were disenfranchised because of mass mail balloting, corrupt voting machines, markers / pens that caused ballots to be tossed, etc?

Many states have instituted stricter voting laws to make it easier to vote and harder to cheat. Democrats are fighting these laws by claiming racism, discrimination, and any number of other nonsensical reasons they can come up with. The fact is, Democrats want to make it harder to vote and easier to cheat. Democrats are trying to rig the election system to benefit themselves, regardless of what the people want. Democrats are completely out of touch with the American people.

We must institute and enforce voter ID, signature verification, citizenship verification where necessary, no ballot drop boxes that can be tampered with, more poll watchers for all parties involved, no mass mail ballots. We can save a lot of taxpayer money by putting out ads and information about how you can go about requesting and getting an absentee ballot.

Our US Constitution and state Constitution and laws must be followed. Democrats seem to be ignoring all of these things for self preservation, political benefit and it must stop.

Elected officials are just that – elected by WE THE PEOPLE. Our elected officials work for us – we don't work for you. We the people have had enough of the lies, cheating, stealing, corruption of the left. We must have election integrity and laws to ensure that integrity. Without it, the people lose trust in election results and therefore, lose trust in our government.

Knowing what we know now about what happened in 2020 in our state and across the nation (GA, PA, WI, AZ, TX, etc), we must act accordingly to ensure that our elections are fair and free of fraud and deception. We now have at least 3 states calling for decertification of 2020 election results – WI being the most recent and that call came from a judge based on an independent investigation into their elections.

We cannot have 2020 happen again. We must do all we can to ensure it never happens again. We must audit 2020 elections in all 50 states, tighten our election laws, follow the laws and the Constitution.

Bottom line, NO MASS MAIL BALLOTS that violate our laws and the Constitution – state and federal! Follow the laws as written, not as you want them to be!
